“

As a Visual Arts teacher, I've always focused on creativity and expression, but [Moreland's PD] session opened my eyes to how AI can expand those boundaries in meaningful ways. I learned new perspectives on using AI responsibly and creatively; far beyond the narrow uses I was familiar with. The exchange of ideas and resources with other participants truly broadened my understanding and gave me fresh tools to integrate AI into my teaching practice thoughtfully.

”

**Nermin Nabil** | Visual Arts Teacher, Grades 6-12

# Program Overview

Each PD course kicks off with a live virtual class followed by two or three asynchronous activities for participants to complete throughout the week. If it's a multi-week course, there will be a live class and activities for each week. Participants will collaborate with each other and get feedback from their Moreland instructor, revising their activities and assignments as needed.

At the end of the course, any participant who attended each class and completed the assignments will earn the allotted CEUs.

1-4 weeks, depending on the course

1-4 CEUs per course

100% online, with a combination of live sessions and asynchronous, collaborative learning

Small cohorts led by experienced Moreland University instructors

Relevant topics with practical lessons your teachers can immediately apply

# Course Menu

If you don't see what you're looking for, let us know. We create custom PD courses for our partners and would be happy to work with you to build exactly what you and your teachers need.

Title	Description	Timeline	Credits	Cost
AI for Educators: Enhancing Instructional Design	Explore strategic applications of artificial intelligence to enhance instructional design and efficiency. Participants will investigate potential uses, benefits, and drawbacks of various tools and will use AI to create a classroom-ready activity or resource.	2 weeks	2 CEUs	\$300 per participant
Classroom Essentials for Instructional Assistants	Identify concrete strategies for instructional assistants to work in collaboration with lead teachers. Participants will create a blueprint to support an inclusive learning environment, maintain high standards, and meet the diverse needs of students.	3 weeks	3 CEUs	\$450 per participant
Classroom Essentials for Substitute Teachers	Create a positive classroom climate as a substitute teacher by clearly communicating norms and expectations. Participants will build a toolkit of strategies, including formative assessments, to implement classroom routines and procedures.	3 weeks	3 CEUs	\$450 per participant
Classroom Essentials for Teachers	Establish an inclusive learning environment by defining norms and maintaining high classroom expectations. Participants will create a list of 3-5 classroom norms and learn how to better implement routines and transitions.	3 weeks	3 CEUs	\$450 per participant

Title	Description	Timeline	Credits	Cost
Culturally Responsive Social-Emotional Learning	Gain a foundational understanding of the 5 core competencies of social-emotional learning and understand how to design and implement SEL strategies in your classroom. Participants will get a digital toolkit with SEL resources and create an actionable SEL initiative or strategy.	4 weeks	4 CEUs	\$600 per participant
Data-Driven Instruction	Learn how to collect and analyze student learning data to inform instruction. Participants will create a toolkit of 10 formative assessments and learn how to effectively apply them in the classroom.	1 week	1 CEU	\$150 per participant
Differentiated Instruction	Design and implement formative assessments that cater to students' diverse needs, including adapted assessments for ELLs and students with special needs. Participants will gain a deeper understanding of assessment accommodations and responsive teaching, learning how to adjust in real-time.	4 weeks	4 CEUs	\$600 per participant
Embracing Culturally Responsive Pedagogy	Understand culturally responsive pedagogy and learn how to apply CRP strategies in your classroom. Participants will create a cultural asset map of their own classroom's diversity and assets.	1 week	1 CEU	\$150 per participant
Essentials for Special Education Teachers	Create a positive, inclusive learning environment tailored for students with special needs. Participants will create a practical list of accommodations, emphasizing high expectations, and learn new strategies for procedures and transitions.	3 weeks	3 CEUs	\$450 per participant

Title	Description	Timeline	Credits	Cost
Improving Feedback for Learning	Create a system for teacher-given feedback that is meaningful, actionable, and promotes a growth mindset and self-directed learning. Participants will analyze samples and create a checklist of characteristics for effective feedback.	1 week	1 CEU	\$150 per participant
Language and Literacy Development	Grow your expertise in foundational language and literacy development, enriching instruction and support for diverse learners. Participants will study key literacy concepts and create a student-centered language and literacy instruction plan.	4 weeks	4 CEUs	\$600 per participant
Small-Group Instruction Institute	Leverage small-group instruction to meet diverse student needs. Participants will implement a small-group learning activity, including collecting and analyzing student work samples to assess outcomes.	4 weeks	4 CEUs	\$600 per participant
Teacher Leadership Development	Explore the characteristics of effective leadership and develop strategies for school improvement. Participants will create a leadership project, including setting S.M.A.R.T. goals, for a targeted area of growth or improvement.	4 weeks	4 CEUs	\$600 per participant
Teacher Mentorship Development	Optimize the mentor/mentee relationship through data-driven practices aimed at enhancing teaching quality and retention. Participants will explore their own educational identities and personalities and match those with different mentorship models.	4 weeks	4 CEUs	\$600 per participant

# Why Moreland?

Our PD is designed to match the needs and goals of your organization. The blend of live, virtual classes with asynchronous activities allows your teachers to collaborate with each other and their instructors while prioritizing their own schedules and learning styles.

Hands-on learning

Teacher centered

Experienced instructors

Practical lessons

Scalable

Flexible

Convenient

Customizable
